IMAGE PROCESSING · MATLAB

MATLAB | Image Contrast Enhancement

Early computer vision / image-preprocessing exercise

ENGINEERING SUMMARY

The CMS archive also contains MATLAB scripts and data assets related to a contrast-enhancement exercise. This is currently documented only as an early image-processing activity while the user’s separate AI-based moss-detection project awaits its code and evaluation figures.

METHOD / CONTRIBUTIONS

- Review supplied contrast-enhancement MATLAB scripts and supporting data.
- Prepare original input/output comparisons and document the algorithm after validation.

RESULTS & EVIDENCE

- Code and MATLAB data assets are present; there is not yet a verified performance result suitable for the public portfolio.

SCOPE / LIMITATION

Not presented as a trained AI classifier or validated moss-detection model.

SUPPORTING RECORD

MATLAB contrast-enhancement scripts and dataset fragment in the CMS archive.
